Petra Class won the 2008 Award of Excellence at the 2008 American Craft Exhibition and the Best in Show Award at the San Francisco America Craft Council Show!

Combining the rigor of European craftsmanship and contemporary design with the freedom of expression of her adopted American home, Petra Class's jewelry has its very own exciting language.

Working out of a small, dynamic studio in San Francisco -- a treasure trove of gold and gemstones --- Petra Class creates one-of-a-kind artworks to wear. Her approach is highly refined yet not afraid to leave rough edges. The soft glow of matte gold complements the fireworks of gemstone, and polished gems are paired with rugged rocks to create beauty with character. Crafted with recycled gold and responsibly mined gemstones, Class's jewelry honors and enhances the beauty of the earth's essential elements.

From its modern lines to its heirloom quality, this is jewelry you'll cherish -- and love to wear -- because it celebrates the joy and singularity of each and every day.

This is jewelry as fiercely individual as the woman who designed it -- and the woman who makes it her own.
